

FETAL HEALTH SURVEILLANCE REFERSHER PROGRAM

PROGRAM LEVEL	FUNDAMENTALS
TARGET AUDIENCE	<p>Refresher: The FHS Refresher workshop is intended for experienced providers who have already received foundational level education [Fundamentals of FHS]. The FHS Canada Steering Committee recommends that it is delivered to an interprofessional group of intrapartum health care providers whenever possible.</p> <p><i>This course is not appropriate for the inexperienced practitioner</i> (previous attendance in a FHS Fundamentals Workshop is required and a prior certificate of completion within 2-5 years must be provided if course was taken elsewhere)</p>
DESCRIPTION	<p style="text-align: center;">4 hour Fetal Health Surveillance Refresher Program consists of 2 parts:</p> <p style="text-align: center;">Review of the online Fundamentals of Fetal Health Surveillance – A Self-Learning Manual https://www.cpd.med.ubc.ca/learn/learning-activities/course?eventtemplate=22 and successful completion of the Canadian Fetal Health Surveillance (FHS) Online Exam is required prior to attending the workshop.</p> <ol style="list-style-type: none"> 1. The FHS exam certificate of completion must be sent to pinnegar.rachel@gmail.com 2 working days prior to the workshop. You will not be able to attend the workshop without submitting the certificate. The Canadian Fetal Health Surveillance (FHS) Online Exam is available for purchase under the Final Evaluation tab in the online Fundamentals of Fetal Health Surveillance – A Self-Learning Manual. The cost of the online exam (30\$). Note: This portion is not covered under the NSM Regional Women and Children Network and will be the individual’s responsibility. <p style="text-align: center;">Please note the reading of the online manual and completion of the online exam may take you up to 8-10 hours, please plan accordingly.</p> <ol style="list-style-type: none"> 2. Attendance and participation of the FHS Refresher workshop
OBJECTIVES	<ol style="list-style-type: none"> 1. Describe various methods of intrapartum fetal assessment with emphasis on intermittent auscultation and electronic fetal surveillance. 2. Explain maternal-fetal physiology and pathophysiology 3. Discuss the clinical management of FHR interpretation. 4. Identify strategies to mitigate risks through improved interdisciplinary communication, collaboration and management.
EVALUATION	<p>Successful completion of the Canadian Fetal Health Surveillance (FHS) Online Exam 2 days prior to the workshop.</p>
