

## Program - Webcast

---

### Dear Colleagues,

Mark **Friday January 12<sup>th</sup>** on your calendar and plan to join us online for **St. Michael's Hospital 15<sup>th</sup> Annual Women's Health Symposium**.

We have invited some of our most informed and engaging clinicians to present concise and engaging lectures on important issues related to women's health.

This year, we are pleased to have **Dr. David Macklin** as our special guest speaker for the Mary Cassaday Keynote Lecture. Dr. Macklin is director of the Medcan Weight Management Program and has committed his life's work and research to this challenging aspect of women's health.

**This program will be recorded** so that you can review all talks and information presented (available for one month post conference). We also plan to answer as many questions as possible either live or through the Q & A box and will provide a transcript of all questions answered through the Q and A box.

So grab a coffee and your laptop and plan to be with us for an enjoyable morning of learning on January 12, 2024!

### Sari Kives
